

Reflective

# Sky Series

**Description:**

*"The Sky series is a dual reflective film providing superior heat rejection and a lowered interior reflectivity. The dual nature also performs year-round, keeping you cool in the summer and warm in the winter."*

**Key Features:**

- Dual reflective technology provides excellent nighttime vision when looking out
- High solar heat reduction to increase comfort and minimize hot & cold spots from room to room
- 1.5 Mil thickness
- Provides excellent visual privacy at darker shades
- High UV & IR blocking greatly slows sun damage & fading
- Limited lifetime manufacturer backed residential warranty
- Limited 10 yr manufacturer backed commercial warranty

| Specifications                     | Sky40 | Sky30 | Sky20 | Sky10 |
|------------------------------------|-------|-------|-------|-------|
| Total Solar Energy Rejected (TSER) | 55%   | 65%   | 70%   | 83%   |
| Visible Light Transmittance (VLT)  | 37%   | 30%   | 23%   | 8%    |
| Exterior Visible Reflectivity      | 28%   | 34%   | 33%   | 54%   |
| Interior Visible Reflectivity      | 21%   | 26%   | 16%   | 13%   |
| Sun Glare Reduction                | 52%   | 66%   | 74%   | 91%   |
| UV Rays Blocked (both UV-A & UV-B) | >99%  | >99%  | >99%  | >99%  |

**Notes:**

1. Performance results are calculated using NFRC methodology and LBNL Window software, and are subject to variations within industry standards and only intended for estimating purposes. This data is provided for informational purposes only and are subject to normal manufacturing variances.

2. Testing performed on 1/4" (6mm) clear glass and are subject to variations withing industry standards.

3. Performance results for glare and fade reduction are calculated by comparing filmed glass to that of untreated glazing.
