

Daydream Series

Description:

"The Daydream series is an outstanding, cost effective dual reflective film designed specifically for the residential market. This series of films reduces solar heat gain and cuts annoying glare while introducing minimal interior reflectivity."

Key Features:

- Dual reflective technology provides excellent nighttime vision when looking out
- High solar heat reduction to increase comfort and minimize hot & cold spots from room to room
- 1.5 Mil thickness
- Provides excellent visual privacy at darker shades
- High UV & IR blocking greatly slows sun damage & fading
- Limited lifetime manufacturer backed residential warranty
- Limited 10 yr manufacturer backed commercial warranty

The Skin Cancer Foundation recommends this product as an effective UV protectant.

Notes:

1. Performance results are calculated using NFRC methodology and LBNL Window software, and are subject to variations within industry standards and only intended for estimating purposes. This data is provided for informational purposes only and are subject to normal manufacturing variances.
2. Testing performed on 1/4" (6mm) clear glass and are subject to variations within industry standards.
3. Performance results for glare and fade reduction are calculated by comparing filmed glass to that of untreated glazing.

Specifications	DD35	DD25	DD15	DD5
Total Solar Energy Rejected (TSE _R)	52%	64%	71%	80%
Visible Light Transmittance (VLT)	38%	28%	17%	6%
Exterior Visible Reflectivity	18%	31%	37%	50%
Interior Visible Reflectivity	12%	18%	13%	11%
Sun Glare Reduction	57%	68%	81%	92%
UV Rays Blocked (both UV-A & UV-B)	>99%	>99%	>99%	>99%
